

ANTHROPOLOGY COURSE LIST SPRING 2021

ANTH 10000 INTRODUCTION TO ANTHROPOLOGY

MWF 11:30-12:20 Sync online Flachs
Distance Learning Smith
A general introduction to anthropology's holistic approach to human nature and behavior. A basic survey of biocultural development and evolutionary process, and of human uniformity and diversity through time and across space. CRN 11017, DL 31898

ANTH 20100 INTRODUCTION TO ARCHAEOLOGY AND WORLD PREHISTORY

TTH 3:00-4:15 Sync online Otárola-Castillo
ONLINE-Special permissions required Otárola-Castillo
Introduction to the ideas and practices of archaeology that are used in the study of human prehistory, from the earliest stone tools to the development of agriculture and states. Emphasis is placed on the objectives and methods of contemporary archaeology. CRN-11304, OL-CRN 26117

ANTH 20400 INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY AND HUMAN EVOLUTION

TTH 12:30-1:20 Sync Online Veile
ONLINE-Special permissions required Veile
This course surveys biological anthropology through a review of evolutionary theory and genetics, the fossil evidence for current theories in human evolution with insight from modern non-human primates, and the influence of environmental stressors on modern human biological variation. CRN 11033, OL-CRN 29408

ANTH 20500 HUMAN CULTURAL DIVERSITY

MW 1:30-2:20 Sync online Johnson
Distance Learning Docot
Distance Learning Christodoulakis
Using concepts and models of cultural anthropology, this course will survey the principal cultural types of the world and their distribution, and will undertake a detailed analysis of society's representative of each type. Lec. CRN 11041 DL- CRN 54814, 31862

ANTH 21000 TECHNOLOGY AND CULTURE

MWF 12:30-1:20 Sync online Nyssa
Distance Learning Pike
This course explores the social dimensions of technology from the perspective of ancient, modern, and post-modern society. Topics include the origins of particular technologies; processes of technical development and dissemination; the politics of everyday artifacts; virtual identities; and technologies of the body. CRN 10606, DL-CRN 31900

ANTH 21200 CULTURE, FOOD AND HEALTH

TTH 1:30-2:45 Sync online Lindshield
This course is designed to provide an introduction to the field of Medical Anthropology in which we will examine issues related to health and illness from various perspectives outside of the Western biomedical perspective. CRN 26846

ANTH 21500 INTROCUCTION TO FORENSIC ANTHROPOLOGY

MWF 3:30-4:20 Sync online Beasley
Introduction to forensic anthropology, the science that utilizes methods from skeletal biology and archaeology as tools in human identification in a medico-legal context. This course introduces students to methods used to recover and positively identify human remains, and to evaluate trauma and taphonomy in medico-legal situations. Topics include an overview of historical and current developments in the field. Students will develop a comprehensive understanding of the sequential order of applied work from the search for forensic scenes through the recovery of remains, and skeletal analysis in the laboratory. CRN 22188

ANTH 25600 ARCHAEOLOGY OF BEER

MWF 2:30-3:20 BRWN 1154 Cooper
This course examines the origins, evolution, cultural context, and social role of beer and other alcoholic beverages through the lens of archaeology and anthropology. Topics covered will include but are not limited to: beer in the ancient world, the material culture of brewing and fermenting, origins of agriculture, emergence of social complexity, sexual division of labor, social identity (gender, class, ethnicity), and historic and recent trends in production and consumption. CRN 15812

ANTH 31200 THE ARCHAEOLOGY OF ANCIENT EGYPT AND THE NEAR EAST

TTH 10:30-11:45 Sync online Buzon
Selected topics on the archaeology of ancient Near Eastern cultures in Mesopotamia, the circum-Mediterranean area, Egypt, and the Nile Valley, emphasizing an anthropological interpretation of the political, social, religious, and economic systems that contributed to their development. CRN-12833

ANTH 33500 PRIMATE BEHAVIOR

TTH 10:30-11:45 Sync online Lindshield
This course is an introduction to the primate order and primate studies. The emphasis is on field studies. Ecological influences on social organization and behavior, learning, play, and communication will be considered as adaptations within an evolutionary framework. CRN 17490

ANTH 33600 HUMAN VARIATION

TTH 1:30-2:45 Sync online Buzon
Biological differences between human individuals and groups, causes of variations, the role of genetics, concepts of race, and the interrelationship between the social and biological meanings of race will be considered. CRN 22369

ANTH 34000 GLOBAL PERSPECTIVES ON HEALTH

TTH 9:00-10:15 Sync online Briller
MW 10:30-11:20 STEW 314 Christodoulakis
TBA Online special permission required Christodoulakis
This course examines health issues and risks faced by individuals around the world, but especially in resource poor geographical areas. We will explore in-depth the gendered, ethnic, cultural, and class dimensions that underlie the patterning of disease and illness worldwide. CRN: 16194, 31860, 31861,31862

ANTHROPOLOGY COURSE LIST SPRING 2021

ANTH 34100 CULTURE AND PERSONALITY

TTH 12:00-1:15 Sync online Anderson

An inspection of the dynamic relations between culture and personality, with a view to understanding both culture-specific integration of these phenomena as well as psychobiological universal patterns of human behavior. CRN-26847

ANTH 37900 NATIVE AMERICAN CULTURES

MWF 12:30-1:20 Sync online Cooper

General survey of North American Indian cultures. Topics to be covered include prehistory; languages; economic, social, and political organization; religion, aesthetics; culture contact and change; and contemporary Native American issues. CRN-11487

ANTH 38400 DESIGN AND INNOVATION:ANTHROPOLGY

M Lecture 9:30-11:20

Kelley

MW Lab 10:30-11:20

Kelley

M Lab 2:30-4:20

Briller/Kelley

MW Lecture 1:30-2:20

Briller/Kelley

This course will involve anthropologists working with designers on thinking about today's challenging problems. You will learn about technology use, ethnographic methods, human centered design and working on interdisciplinary teams. Cross-listed TLI 367

ANTH 39300 INTERDISCIPLINARY APPROACHES TO ENVIRONMENTAL AND SUSTAINABILITY STUDIES

TTH 9:00-10:15 Sync Online Johnson/Nies/Raymond

ONLINE-Special permissions required Johnson/Nies/Raymond

This course is the lynchpin of the undergraduate Certificate in Environmental and Sustainability Studies. It will present a series of case studies, core concepts, and problem questions that integrate the following three academic approaches: 1) Human Dimensions and Environment/Sustainability, 2) Engineering and Environment/Sustainability, and 3) Environmental/Sustainability Sciences. CRN-28512, OL CRN-

ANTH 41400 INTRODUCTION TO LANGUAGE AND CULTURE

TTH 3:00-4:15 Sync online Anderson

An exploration into the nature of human communication, particularly the structures, functions, and substance of human language. Focus is on the interpenetration of language, culture and cognition, on the evolution of language and speech, and on their uses in everyday life. (CRN 44476) cross listed LING 49800

ANTH 50500 CULTURE AND SOCIETY

T 1:30-4:20 STON 154 Rubaii

An introduction to cultural anthropology for the advanced student. A review will be made of the history of anthropology and its place in the social sciences. Emphasis will be placed on problem formulation and methodology in the study of culture change. CRN 14642

ANTH 51900 INTRODUCTION TO SEMIOTICS

TTH 10:30-11:45 Sync online Broden

An inquiry into various hypotheses concerning sign generation, perception, and interpretation applicable to a broad range of phenomena (including artistic texts, verbal and non-verbal communication, rhetorical discourse, myth, and other linguistic, cultural, ethological, and evolutionary contexts. CRN 19201

ANTH 53500 FOUNDATIONS OF BIOLOGICAL ANTHROPOLOGY

TTH 9:00-10:15 STON 154 Veile

This course covers such topics important in Biological anthropology as applied to both living and extinct humans and primates. Possible topics include: evolutionary thought; genetics, race, and human variation; the intersection of biology and culture; fossils and paleoanthropology; ecology and speciation; primate behavior; and theories on the social behavior of early humans. CRN-19201

ANTH 62000 POLITICAL ECOLOGY

W 2:30-5:20 STON 154 Zanotti

This graduate seminar examines political ecology as a research framework. Students learn about the foundations of political ecology in anthropology, geography, political science and in other disciplines. Students also explore the theories and methods associated with this field of study. Through reading ethnographies and other case studies, students gain an understanding of the varied past and present applications of political ecology
Cross listed with WGSS 68100 CRN 21250

ANTH 64100 DISCOVERY AND DESIGN

Tue 1:30-4:20 STON G098 Nyssa

This course focuses on using anthropology to address social issues. The course examines topics including: the history of anthropologists working in applied settings, the relationship between theory and practice, professional ethics, job opportunities, and skills needed as anthropological practitioners. CRN 21116
