ANTH 20400  INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY AND HUMAN EVOLUTION
TTH 1:30-2:20 WTHR 172 Lindshield
This course surveys biological anthropology through a review of evolutionary theory and genetics, the fossil evidence for current theories in human evolution with insight from modern non-human primates, and the influence of environmental stressors on modern human biological variation. CRN 11043

ANTH 21000  TECHNOLOGY AND CULTURE
TTH 10:30-11:20 BRNG 268 + online Hybrid Okonkwo
TTH 3:00-4:15 WALC 2087 TBA
This course explores the social dimensions of technology from the perspective of ancient, modern, and post-modern society. Topics include the origins of particular technologies; processes of technical development and dissemination; the politics of everyday artifacts; virtual identities; and technologies of the body. Lec. CRN 15355-Okonkwo CRN: 15356-TBA

ANTH 21200  CULTURE, FOOD AND HEALTH
TTH 12:00-1:15 BRNG 8268 Veile
This course is designed to provide an introduction to the field of Medical Anthropology in which we will examine issues related to health and illness from various perspectives outside of the Western biomedical perspective. CRN 15393

ANTH 23000  GENDER ACROSS CULTURES
TTH 12:00-1:15 ME 1061 Cromer
Explores gender and sexuality from a cross-cultural perspective. Draws on case studies to explore the complexities of women and men’s lives. Examines gender hierarchies, gender in a globalized world, and the cultural construction of sexuality and gender. CRN-36893

ANTH 23500  THE GREAT APES
TTH 10:30-11:45 UNIV 001 Lindshield
This course serves as an introduction to the Great Apes and primate fieldwork. We will explore the role of subjectivity and gender in science as we examine the writings and work of primatologists. We will discuss the ethics of habituating wild animals for research and tourism. In the last part, we will focus on the current conservation problems apes face and the ways in which their future is linked to our own. CRN-13162

ANTH 25400  ARCH HOAXES, MYTHS AND FRAUDS
TTH 1:30-2:45 STON 217 Lindsay
Why does archaeology inspire so many theories about aliens, dark conspiracies, apocalyptic predictions, and mysterious technologies? While the study of the ancient past indeed involves the pursuit of ancient “mysteries,” archaeology attempts to solve these mysteries with rigorous methodologies, thoughtful analysis of data, and the scientific method. Through readings, discussion, and films, students will develop critical thinking and analytical tools to evaluate evidence and diagnose “fake news” archaeology and pseudoscience when they see it. CRN-18470

ANTH 30700  THE DEVELOPMENT OF CONTEMPORARY ANTHROPOLOGICAL THEORY
MW 4:30-5:45 STON 217 Johnson
Explores the history of anthropological theories pertaining to the understanding of commonality and variation in human biology, behavior, society, and cultures as they have developed over the approximately two centuries since anthropology was founded as a separate discipline. Considers those social, cultural, and historical factors that have influenced the history of anthropological ideas. CRN 15171

ANTH 31000  MORTUARY PRACTICES ACROSS CULTURES
MW 11:30-12:20 + online Hybrid WALC 3090 Buzon
Explores how death is treated or has been treated in diverse world cultures and time periods. Death is viewed as an expression of social behavior and as an expression of symbolic meaning. LEC: CRN 15349 & Online CRN: 15351

ANTH 31300  ARCHAEOLOGY OF NORTH AMERICA
TTH 3:00-4:15 STON 215 Otárola-Castillo
Archaeological overview of North America emphasizing Indigenous cultures prior to the arrival of Europeans, but including Contact and Post-Contact communities of the Historic Period. Topics will include the peopling of the Americas, culture and environment, social complexity, and Cultural Resource Management. CRN 13558

ANTH 33600  HUMAN VARIATION
MW 12:30-1:20 + online Hybrid WALC 3090 Buzon
Biological differences between human individuals and groups, causes of variations, the role of genetics, concepts of race, and the interrelationship between the social and biological meanings of race will be considered. Lec: CRN 13164, online CRN 13171

ANTH 34000  GLOBAL PERSPECTIVES ON HEALTH
TTH 4:30-5:45 BRNG 8268 CRN 15396 Briller
This course examines health issues and risks faced by individuals around the world, but especially in resource poor geographical areas. We will explore in-depth the gendered, ethnic, cultural, and class dimensions that underlie the patterning of disease and illness worldwide. CRN

ANTH 34100  CULTURE AND PERSONALITY
TTH 3:00-4:15 BRNG 8268 Anderson
An inspection of the dynamic relations between culture and personality, with a view to understanding both culture-specific integration of these phenomena as well as psychobiological universal patterns of human behavior. CRN-61635

ANTH 37300  ANTHROPOLOGY OF RELIGION
MW 2:30-3:20 STON 217 + online Hybrid TBA
Anthropological theories of the origin, development, and functions of religion, ritual, and myth. Data drawn from western and non-western societies, with special emphasis on the relationship of religion to social structure, cultural patterns, and social change. Lec: CRN 15321 and online CRN 19975

Updated 03/21/19
ANTH 37900  NATIVE AMERICAN CULTURES
TTH  9:00-10:15    KRAN G016    Cooper
General survey of North American Indian cultures. Topics to be covered
include prehistory; languages; economic, social, and political
organization; religion, aesthetics; culture contact and change; and
contemporary Native American issues. CRN-50866

ANTH 38000  USING ANTHROPOLOGY IN THE WORLD
TTH  1:30-2:45    BRNG B268    Okonkwo
The use of anthropology in practical contexts. What anthropological
practice is, how it originated, how it can be applied in non-academic
and interdisciplinary contexts and careers. The main contemporary
issues surrounding anthropological practice, including training, ethics,
relevance, and rigor. CRN 15353

ANTH 38400  DESIGNING FOR PEOPLE: ANTHROPOLOGICAL
APPROACHES
MW  Lecture 9:30-10:20 & Lab M 11:30-1:20-WALC 3122    Kelley
MW  Lecture 10:30-11:20- & Lab M 1:30-3:20-WALC 3122    Kelley
This course is about designing for people. You will use anthropological
knowledge and skills to better understand human and technology
interactions. With students from other fields, you will learn how to apply
an anthropological perspective to human centered design and design
with the needs of a specific user group in mind.

ANTH 39200  ANTHROPOLOGY OF MIGRATION, BORDERS, AND
WALLS
MWF  12:30-1:20    STON 215    TBA
We will use history, ethnography, and artistic-creative approaches to
develop anthropological, interdisciplinary and multi-modal perspectives
on migration and its impact on communities, individual identities and
kinships. Readings will be paired with film, photographs, comics, and
memes. Students will develop short essays or creative exercises on
selected themes that will lead to a final paper. CRN 15401

ANTH 41001  SENIOR CAPSTONE IN ANTHROPOLOGY
TTH  1:30-2:45    STON 215    Briller
Culminating experience required for all anthropology majors. Course
synthesizes four-field anthropology coursework and training, and
discusses academic/career options that benefit from anthropological
training. Major elements of the course will include the synthesis paper
and presentation, senior portfolio, and professional development. CRN
15187

ANTH 50700  THEORY IN SOCIOCULTURAL ANTHROPOLOGY
TTH  4:30-5:45    STON 154    Lindsay
A broad overview of ideas that influenced the growth of U. S. and
European anthropological traditions, from Classical and Enlightenment
philosophy to the 19th century evolutionists, especially Marx, Spencer,
Morgan, and Darwin. Anthropological theory and research
epistemology of the 20th century to the present are discussed from this
historical perspective. CRN 51276

ANTH 51400  ANTHROPOLOGICAL LINGUISTICS
TTH  12:00-1:15    STON 154    Anderson
Investigates the varieties of communication in human behavior and
explores linguistics as a tool in social science research. Areas covered
include structural linguistics, historical, and comparative linguistics.
Sociolinguistic literature, nonverbal communication, origins of human
language and speech, and other semiotic extra-communication
functions of language will be discussed. CRN-15191  CROSSLISTED WITH LING 598

ANTH 53400  HUMAN OSTEOLOGY
MWF  2:30-3:20    STON 154    Buizon
Anatomy of the human skeleton and dentition. Detailed study of skeletal
elements and teeth, morphology, function, disease, and pathology.
Identification of human remains with regard to age at death, gender,
growth, and development in biocultural context. CRN 61631

ANTH 53500  FOUNDATIONS OF BIOLOGICAL ANTHROPOLOGY
TTH  9:00-10:15    STON 154    Veile
This course covers such topics important in Biological anthropology as
applied to both living and extinct humans and primates. Possible topics
include: evolutionary thought; genetics, race, and human variation; the
intersection of biology and culture; fossils and paleoanthropology;
ecology and speciation; primate behavior; and theories on the social
behavior of early humans. CRN 15400

ANTH 58900  ARCHAEOLOGY AND MATERIALS SCIENCE
Lecture-Tues. 1:30-3:20    STON 154    Cooper
Lab - Thurs. 1:30-3:20    STON 154    Cooper
This course provides instruction in the methods and theories used by
archaeologists and materials scientists to study ancient and historic
technology. The course focuses on the analysis and interpretation of
archaeological artifacts and provides opportunities for hands-on
learning.CRN-514925(lecture), CRN-14294(Lab) -must register for both
lecture & lab

ANTH 59200  GIS-FOR HUMANITIES AND SOCIAL SCIENCE RESEARCH
TTH  10:30-11:45    WALK 3045    Kong
Geographic Information Systems (GIS) is the technology and research
method that incorporates geographic features and attribute information
from a wide variety of fields to generate maps, manage and analyze
data, and model real-world problems. The course format will include
lecture and in-class practical assignments. CRN-13462

ANTH 60500  SEMINAR IN ETHNOGRAPHIC ANALYSIS
W  10:30-1:20    STON 217    Zanotti
A selection of ethnographic monographs will be read, reported on, and
discussed by seminar participants under the direction of the
anthropology staff. The monographs will be discussed in terms of field
methods employed, particular theoretical strengths and weaknesses,
and their value to current anthropological method and theory. CRN-
56239

ANTH 64200  PUBLIC ENGAGEMENT: ANTH KNOWLEDGE
M  11:30-2:20    WALK 2051    Flachs
This course is about using and communicating anthropological
knowledge. We will discuss what it means to work as an anthropologist
and "public intellectual". Effectively working with stakeholders,
presenting information, offering solutions for addressing problems and
implementing change are addressed. CRN-16313

ANTH 64000  FOUNDATIONS AND FRAMEWORK: APPLYING ANTH
M  11:30-2:20    WALK 2051    Nyssa
This course focuses on using anthropology to address social issues. The
course examines topics including: the history of anthropologists working
in applied settings, the relationship between theory and practice,
professional ethics, job opportunities, and skills needed as
anthropological practitioners. CRN-15202
