COURSE DESCRIPTION & OBJECTIVES

This course introduces students to modern South Asian history and traces the lineages of the ‘modern’ from the time of Mughal rule. We will study the Mughal empire and explore its legacies after its demise; the seventeenth- and eighteenth-century successor states; the structure of British rule and organized resistance to it; and finally, key debates in the subcontinent’s history and historiography. We will pay close attention to dynamic histories of caste, religious reform, and communal violence, and study the effects of colonialism on gender roles.

Course materials include both primary sources (diaries, autobiographies, speeches, and official correspondence) and secondary sources (historical accounts, review essays), and a selection of films.

LEARNING OUTCOMES

• Acquire basic knowledge of South Asian history including major political, social, religious, and cultural developments.
• Learn close reading of primary historical sources.
• Evaluate scholarly arguments, assess evidence and formulate historical questions
• Learn how to posit a grounded thesis and make an argument.
• Appreciate the role of history and historical memory in present-day debates.

COURSE EXPECTATIONS

Full and informed participation, including uploading discussion notes on Brightspace on a weekly basis, two quizzes, a Final take-home exam.

Participation: This course is structured around your active and informed participation. I will take attendance, and you will be expected to read the assigned scholarly texts and Primary Source Documents before coming to class.

A few tools to help you during the discussion sections—which will be every Thursday:
  1. Do the reading and take notes on it.
  2. Bring some discussion questions to the class for others to engage with.
  3. Be prepared to refer to specific passages when making sense of the Documents.
  4. Relate the document to some other themes we have studied in the course.
The class will be divided into small groups to facilitate discussion. You will be given specific questions or topics around which to frame your discussion notes a few days in advance of the discussion day.

On the day of the discussion, you need to come prepared with TWO copies of your notes on the discussion topics. You will hand one copy of that to me and use the other to participate in the discussion. Attendance and participation in all discussions is mandatory; there is no possibility of make-ups in this regard.

Discussion notes will not be accepted after the discussion has already taken place.

I urge you to take notes on my own discussions and citing of the primary documents. More primary sources you cite, the better it is!

**Exams:** The Midterm and Final Exam provide opportunities for you to review, to make sense of what we have read and discussed. I will explain their format in class.
