

Welcome Alumni!

The Center for C-SPAN Scholarship & Engagement is excited to have our Washington, DC alumni be part of the Capitol Careers Alumni Mentor Program. This mentor program runs through the academic school year and is designed to be flexible yet impactful for both alumni and students. It creates opportunities for alumni and students to develop professional relationships that will help students plan for their future and be successful after graduation.

This program is offered to CCSE Student Community members who represent over 20 different majors from programs across Purdue University. And just like the CCSE Student Community our Purdue alumni mentors will represent careers and education from a variety of fields. Alumni mentors will be paired with student mentees who are interested in working and living in Washington, DC for this unique, virtual mentorship. The number of mentor pairs will be dependent on the number of interested participants.

COMMITMENT

- The program will begin the first week in September and will end April 30th.
- Mentor pairs will meet at least one time per month via video conference or phone call at a day and time that they schedule together.

MENTOR PAIRS

- The number of mentor pairs will be dependent on the number of student and alumni participants.
- Mentor pairs who were previously matched and would like to continue together into the next academic year's mentorship program may make that request to the program director.

NEXT STEPS

- Complete the application survey
- Submit a signed Memo of Understanding and Code of Conduct
- Get matched with a CCSE Student Community Member
- Attend the mentee/mentee training session where you'll receive training on the program and meet your mentee and fellow alumni mentors

Please complete the survey using the following link as your first step to becoming part of the Capitol Careers Alumni Mentor Program: <https://bit.ly/BoilerMentors>
