How to change your career account password (Windows)

1. If you are not on Purdue’s wired network on campus please connect to the Purdue VPN before proceeding.

2. Hold down Ctrl + Alt + Del to bring up the secure login screen options.

3. Choose “Change a password…”
4. Enter your old password.
   Enter your new password twice.
   Click the right facing arrow.

5. New passwords:
   • Must contain at least 1 letter
   • Must contain at least 1 number or punctuation mark
   • Must be between 8 and 16 characters long
   • Must be a different password than the previous password
   • Passwords may not be re-used for 1 year
