How to connect to PAL 3.0 (Windows)

1. In the lower right corner, by the time and volume controls, click the WiFi icon in your system tray to view a list of available networks.

2. Click on PAL3.0 and then click Connect.

3. Enter your Career Account username and password when prompted, then click OK.

4. Click Connect when the certificate warning prompt appears.
5. If you’re unable to connect to PAL 3.0 using the previous instructions, try connecting to “attwifi” in your WiFi options, open a web browser and navigate to www.itap.purdue.edu/airlink/xpc/. On this page, click on Start.

6. On the next page, you will need to allow Java add-on to install in your web browser. Click Run.

7. For the Express Connect window, enter your Purdue email credentials and hit Continue.
8. Once it’s finished, click Done and you should be connected to PAL 3.0.
9. If you are asked for username/password, please use your Purdue career account credentials. **NOTICE:** You might need to enter your username in the following format: ONEPURDUE\username.
